

Forest Service policy permits Forest Plan amendments resulting from analysis conducted during Forest Plan implementation [36 CFR 219.10(f) and FSM 1922.5]. I have determined the proposed changes are not significant, since they are minor adjustments and will not alter the multiple-use goals and objectives for long-term land and resource management.

Adoption of this amendment will not significantly change the forest-wide environmental impacts disclosed in the Clearwater National Forest Plan Environmental Impact Statement (EIS). This amendment is categorically excluded from further documentation in an EIS or EA (FSM 1950 and FSH 1909.15).
